

Sharon Salim Masanja  
Date of birth: 16th October 2014

Sharon is three years old. Very sadly, only last month, her mother died in childbirth. The baby also died.

It is not known who Sharon's father is and she is now living with her grandparents. They are extremely poor and live in a single mud room. They have very few possessions and struggle to live from day to day.

Although Sharon's grandparents would very much like her to have an education, there is no way in which they could afford for her to go to school. It is only through the support of a sponsor that this little girl will be able to have the opportunity of an education and hope for the future.
